Misc 4 23-15
E & A.

Office of the Dewan of Mysore.

NOTE.

Dated 15th February *191* 6.

Mr. N.S.Tiruvankata Chari, M.A., Superintendent of the Mysore Tannery, saw me on the 11th instant and suggested the desirability of training two Graduates in tannery work. He stated that the profession offered good prospects.

2 The Secretary, E. & A., will be good enough to examine the position and favour me with definite proposals. This was one of the conditions which I had asked for when we undertook to help the Tannery. Mr. Tiruvenkata Chari is now anxious to meet our wishes.

3 The case may be worked up under the orders of the Second Member.

15.2.16.

The Secretary, E. & A.

4 The Sec'ty will kindly put up a note & draft.

8 The Govt has already called upon a report from the Director of Industries on this subject. A draft is put up forwarding copy of Devani's minute & calling for a report. The main question is what stipend or scholarship should be paid to the graduates, how long, & what is to be their future. My own view is that graduates of the chemistry may be prepared. They may be given a stipend of Rs 50 to 75 per month for the period necessary for being thoroughly trained, the condition of their forming the foundation by starting factories in suitable places in the State, without looking for Govt employment. Of course if Govt have any need for their services, Govt will employ them. Failing such need, the trained graduates ought to have enough stamina to establish their own business or firms. or else their training

will do no good to the Ministers or the State. Perhaps a meeting of the Dir of Industries, Secy Industries Com, Mr Thiruvenkatachari & Secy E & A may be convened as an early date & the scheme thoroughly discussed in a practical spirit. Such a step might clear all doubts & pave the way for a workable scheme being adopted in the near future

Secretary

Sep/ 28/2

I am seeing Sir Malcolm about this business. I have explained to him that it is very difficult to get a University graduate. I have also asked him if he can offer the names of a few suitable young men. Meanwhile Sir Malcolm suggested that we should make the scholarships we have sanctioned for the Leather School available in the January. Please see, if this can be done

1. I am afraid unless the G.O. is altered a little, we can not at present utilise these scholarships for students who go to the Tannery without going to Massey.

2. I need hardly suggest that in this connection while the matter is discussed, some idea may be formed of the prospects of employment & nature of employment of these trained students. To train workmen & boys of the classes who follow leather trade is one thing & to train educated men with ambition for high salaries is another. At any rate this may be taken up side by side. If it is actual working classes & their children that stand in need of encouragement & training in 3 Rs & workshop very much.

16 As I understand that there is no likelihood of the Leather School being started soon at Madras or the Leather Expert has gone to the front, I would suggest that this year the scholarship may be awarded quickly for training in the Tannery. Mr. Simmonds-Gooldhain tells me that some arrangements could be made for training them in the Tannery itself. At least we may award the scholarship to begin with at once
